SUBSCRIPTION \$1.50

COMMERCIAL CLUB GETS BUSY WANT SMELTERS IN THE COUNTY WILL ADVERTISE CITY AND CANYON

Wm. Wilson of Provo is Endorsed by Business men to Get out Illustrated Book on Resources of American Fork Canyon American Fork City and her Business Men

At a meeting of the Commercial Club last Saturday evening it was decided to offer inducements to the smelters that are contemplating leaving Salt Lake county to select the site at Pelican point just across the lake.

The advantage claimed for this location is that the district is so far from any farms, and lying near large deposits of lime and other kindred deposits that would assist in the smelting operation. The general trend of the winds would tend to take the fumes in the direction of the mountains that lie within half a mile of the shores of the lake.

John H. Wootton, president of the club, was appointed to visit the managers of the different smelting companies and ascertain their feelings with regard to such a location.

Another business agitated was that of advertising American Fork city, and our mining district. Some talk was made on having THE CITIZEN undertake a mammoth illustrated special edition, supported by the club members. The meeting was finally postponed until Thursday night when a report could be had from Mr. Wootton, in reference to the smelters and the advertising scheme could be further considered.

Mr. Wootton was unable to give the club any definite information, from the fact that the smelter managers are out of the state at the present time but both sides of the question were gone over and while there may be some opposition should the club call a mass meeting of the citizens we believe the citizens in the north end of Utah county almost as a whole would favor encouraging smelters. The smoke nuisance, to land six miles away (across

the lake) looks ridiculous to men who have investigated the proposition.

The advertising of American Fork was next called before the meeting by Pres. Wootton, and Wm. Wilson of Provo, an advertising promoter who just got out an advertising booklet for that city, was called upon to explain his ideas on municipal advertising. Mr. Wilson had samples of his book (which were nicely illustrated, containing short sketches of Provo's prominent citizens) and described his system of getting out same, which had been explained to many of the club members before the meeting and in most cases they were favorable to taking it up. After some discussion, in which THE CITIZEN was also asked for an opinion, S. L. Chipman made a motion that we approve of the book advertising as a Club, and give Mr. Wilson our support in his endeavor of getting out same. Mr. Wilson stated the cost of Provo's book was between \$700. and \$800. or at a rate of \$25.00 per page which was to be paid for by subscribers taking space for special write-ups, etc. There being no charge for public institutions as the private ads would balance that cost. A motion was made that we appoint the advertising committee to decide on the exact nature of the city's advertising and report same to Mr. Wilson should it be so decided that he be selected to get out the work.

Very likely Mr. Wilson will be informed today that he can begin at once to select his advertising, with the understanding that the club furnish him all the information in their power. If the book is begun THE CITIZEN will give Mr. Wilson his undivided support and influence.

Alpine Stake Priesthood Meeting

The monthly priesthood meeting of Alpine Stake was held at the hall, American Fork, Jan. 6, 1907, at 7:30 p. m., President S. L. Chipman presiding.

On the stand were Apostles George F. Richards and Rudger Clawson, James G. Duffin, lately released from presidency and the State High Council.

Meeting was opened by singing, "Come Let us Then, Our Journey Pur-sue". Prayer was offered by Elder George Kirkham.

Roll call showed an average attendance of stake and ward officers. Minutes of previous meeting read and accepted. Those recommended for ordination to the priesthood were instructed in their duties by Pres. S. L. Chipman and unanimously sustained.

James G. Duffin was the first speaker. Spoke of his pleasant labors and experiences while abroad in the mission field. The work of God is growing and spreading on the earth, to the modifying and changing of religious thought. Warned against being allured by the things of Mammon to the exclusion and neglect of spiritual things. Deplored the growing tendency among us to speculate in mining and other stocks which lead to the spirit of gambling. We should rather be inclined to study and pursue the more permanent and less risky vocations of life, and follow the simple good examples set us by our illustrious fathers and mothers, the pioneers.

Apostle Richards fully endorsed Elder Duffin's remarks. Advised that we each renew our covenants at the beginning of the New Year to do better than ever before and be punctual in attending our quorum and other meetings. Advised Bishops and Councilors to get into closer touch with the Saints and to visit them at their homes and encourage them to go to the temples and work for the redemption of the dead.

Apostle Clawson dwelt chiefly on the question of Self Control showing that man may become a king or a slave through the observance or neglect of this principle. Cited instances of the awful results that follow those who give way to their permissive, wicked passions. Quoted the life and character of Jesus Christ as the only perfect pattern of complete Self Control; and urged that we, as far as possible, pattern after Him and be willing, if needs be, to lay our all on the Altar for the cause of truth and righteousness.

Pres. S. L. Chipman thanked the visiting brethren for their advice. Hop-

ed we might profit by their good and wise teachings, and resolve to begin the New Year, with increased faith and diligence in the work of the Lord. Reminded Bishops and High Councilors of their duties to the stake and people are duly visited and that the usual winter exercises and studies be resumed and kept up.

Singing, Doxology.
Benediction was pronounced by Pres. A. J. Evans.

Alpine Items.

(By Special Correspondent)
C. C. Hackett who has been laboring as a missionary in the Central States has returned to Alpine. His many friends are pleased to welcome him home.

Mr. and Mrs. D. C. Strong and David Strong spent last week at Garland.

Sunday, Bishop Albert Marsh and his counselors, Thos. Carlile and James Vance were released from office. However no new bishop has been chosen as the one mentioned was not sustained. Apostles Clawson and Richards were here on Sunday as well as all the members of the Stake Presidency.

School opened on Monday with the usual good feeling and enthusiasm. All the teachers were in attendance at the State Teachers Association held at Ogden. They report having spent a most enjoyable and educationally beneficial week.

In about three weeks the Alpine ward is to have another Fair. Mr. B. Bates is chairman of the committee in charge and Mr. Benj. Fullmer and Mr. C. C. Hackett assistants. It is to be elaborate and it is hoped that the sum taken in will be ample to clear the indebtedness of the meeting house. The citizens of the ward have great confidence in the ability of those in charge as in the past they have have proven themselves to be capable men of enterprise and push.

Child Dies from Drinking Lye.

Alta, the two-year-old daughter of Mr. and Mrs. Heber Gledhill died at 5 o'clock Wednesday afternoon. The child mistaking a can of concentrated lye for a cup of water drank from the contents, Friday evening of last week. The liquid spilled over her throat and the front of her dress and while the mother was doing all she could to give internal relief the lye was burning into the babies throat from the outside. The relief from such intense suffering is a blessing, as it could be seen there was no chance whatever for her to get well. The funeral was held from the residence at 2 o'clock yesterday afternoon.

Back To Work.

The public schools of this city opened Monday after the usual two week's vacation. The attendance in all the departments are practically the same as before the holidays and from the healthy look on the faces of the teachers and students, they have enjoyed a well earned rest. Both the Forbes and Harrington buildings have had a thorough brushing up so as to put renewed vigor into the lives of the pupils. The instructors also have begun the first week of the year with a renewed determination to work for the betterment of their respective grades.

The teachers who attended the State Institute and the pupils as a whole are proud of the honor shown our County Superintendent, in being selected as president of that institution.

The New Laws.

Never before in the history of the country has the New Year begun with the introduction of so many new laws of national importance. Of course the most important of these is the pure food act which it is believed will affect the health of millions of households. Five acts of the first session of the Fifty ninth Congress are now in effect as laws. They are the Free Alcohol law, the Anti pass section of the Interstate Commerce Act the modification of the Navigation laws to simplify enrollments and licenses, the law licensing druggists in the District of Columbia, and the Pure Food law.

This last law applies to many thousands of staple articles of food used in every home throughout the length and breadth of the country. There is reason to expect much difficulty in its execution. For months past Mr. Wilson, the Secretary of Agriculture has been hearing delegations composed of manufacturers, jobbers and merchants, endeavoring to secure some advantage in the formulation of regulations of enforcement of the new law. The principle of the new law is the protection of the consumer from adulterated and deleterious foods, drugs, medicines or liquors are barred by the new law. Secretary Wilson has made much progress in framing regulations and is ready to apply the law but in view of the scope of the new law, that there will be many modifications and rulings during the next few months. The new law will require every manufacturer to put a label on packages of food or drink expressing in plain terms what it consists of. The requirement will be enforced by a letter. Distillers are in a terrible state over the new law. They want to put what they call "neutral spirits" in their whiskey. Pure whiskey costs about four dollars a gallon but after it is "neutralized" or adulterated an article adjusted potable and too familiar to millions of Americans, costs only a dollar and ten cents a gallon. It is a curious fact that the dollar and ten cents stuff tastes more like pure whiskey than the real thing. After this date all whiskey bottles that do not tell precisely the constituents of the liquid, by a label pasted conspicuously on the outside will be unlawful.

It's a pleasure to tell our readers about a cough cure like Dr. Shoop's. For years Dr. Shoop's has fought against the use of opium, chloroform or other unsafe ingredients commonly found in cough remedies. Dr. Shoop's, it seems has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines for years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by American Fork Drug Co.

Notice of Delinquent Sale.

The Pacific Gold Mining & Milling Co., principal place of business, American Fork, Utah; location of mines, Alpine and American Fork Mining Districts.

Notice.—There are delinquent upon the following described stock on account of assessment No. 38, of \$2.00 per one thousand shares, levied Dec. 4, 1906, the several amounts set opposite the names of the respective shareholders, as follows:

Cont. No.	Name	Am't. Shares.	Am't.
373	J. R. Dolmer	200	2.00
384	" "	200	2.00
401	" "	100	1.00
430	W. E. Critzer	1400	28.00
480	" "	1400	28.00
500	G. L. Hall	800	16.00
412	B. T. Young	2100	42.00
413	" "	1000	20.00
414	" "	2500	50.00
418	" "	1414	28.28
448	" "	500	10.00
498	R. E. Cassidy	1000	20.00

And in accordance with the law, and an order of the board of directors, made on the 4th day of Dec., 1906 so many shares of each parcel of such stock as may be necessary will be sold at public auction at the office of the secretary on Tuesday the 22 day of Jan. 1907, at 3 o'clock p. m. to pay the delinquent assessment thereon, together with costs of advertising and expense of sale.

J. M. THORNTON, Sec.

School Notes.

(By School Correspondent)

HARRINGTON

Miss Owens reports a number of students absent this week.

Mrs. McCarty's second grade is studying the Eskimo this week. They are paying special attention to writing.

Miss Durrant thinks that by changing the pupils that came to school in the afternoon class to the morning class and vice versa has done much good.

Miss Ormond's school had the highest percent in punctuality the first half year. They are near the completion of their Fifty Famous Stories, and will be ready to begin on the Stepping Stones in about a week.

FORBES.

The Eighth grade have taken up their studies again after two weeks vacation.

The famous "Romeo Dramatic club" will appear before the public in a week or so, presenting "Strife". Watch for the date.

The Eighth grade are just finishing Africa, they next intend visiting Australia and the Pacific Islands.

The Seventh grade have come back to school with good resolutions for the New Year, and intend to make the rest of this school year the very brightest of all previous ones.

The Fifth grade have completed the interesting story "Pied Piper of Hamelin" having spent one month in studying it, and are now taking up "Terrific Scenes at the Natural Bridge".

Miss Lyman was delightedly surprised by her students Friday night. All had a most enjoyable time playing games. As a united body of students we think as most wise men, where there is unity, success lies not far ahead.

HIGH SCHOOL

The High School students are back in school with fine resolutions to use to best advantage the short time before them.

The History class is much taken up with the "doings" of the Tudors Kings.

The Geometry students were just on the eve of adopting for their motto, "I came, I saw, and was conquered" when the light came suddenly crashing through and now that they have mastered some examples in abstract theory they feel that they have surmounted their greatest difficulty.

The Latin students are studying hard for their examination. That is why, when they run into you and set you down more hastily than elegantly in a year by seat, chair (or perhaps the far off floor) they murmur absently minded selector (I am delighted.)

The boys in algebra have gone on a "strike" but through the extra sessions held for their benefit, we think they will soon come to terms.

A number of new students are with us and we wish them success.

To stop a cold, with "Preventics" is safer than to let it run on and cure it afterwards. Taken at the "sneeze stage" Preventics will head off all colds and Grippe, and perhaps save you from Pneumonia or Bronchitis. Preventics are little toothsome candy cold cure tablets selling in 5 cent and 25 cent boxes. If you are chilly, if you begin to sneeze try Preventics. They will surely check the cold, and please you. Sold by American Fork Drug Co.

One of our subscribers took us to task this week for failing, as he remarked, to publish all that happened. It was fortunate for this particular individual that discretion occasionally demands the omission of unpleasant items. Should we publish all that is told to us we would be with the angels in about twenty minutes after our papers were mailed. We try to print all items that are news, or that will encourage, help or cheer any of our citizens along life's rugged road. We all doubtless would enjoy reading "all the news" when its about the other fellow, but our policy is to turn over to the gossips the spreading of scandals that only leave sorrows in their trail.

Does coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real coffee, remember, in Dr. Shoop's Health coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing and satisfying. It's safe even for the youngest child. Sold by William Thornton.

When Mr. Senator Dubois went to interview the President about Mormonism he said, "You women are talking about something you don't know anything about." The President has evidently had enough of petticoats in politics.

1906 to 1907

THE twelve months of the past year have been record breakers for this Institution, and we have no hesitancy in claiming it the greatest year in our history. It is with considerable satisfaction that we say this, for it means we have the confidence of the people. By the growing patronage given us, we know our customers are satisfied that we always aim to give them the best values obtainable for the money. This has always been our object and will continue to be the aim during the life of the institution.

In congratulating ourselves, we don't overlook the important fact that it was through the people we have had such a successful year, and in thanking you, and wishing you a prosperous new year, we will hope to continue "The Peoples' Store" during 1907.

Yours truly
JOS. H. STORRS, Supt.,

American Fork Co-op Inst.
"THE PEOPLES' STORE"

The secret is in the pores. An open skin means a healthy cleanliness and a free circulation of blood. Every gentlewoman knows that her attractiveness largely depends on a clear complexion and good coloring. The most important business in the world are unpleasant with an ugly muddy skin. Pompeian Cream brings color to the cheeks and removes shine. It contains no grease, so makes no shine of its own.

Price 50c and \$1.00 per jar
